CLASS OF 2020

The financial support that this scholarship has provided has been a tremendous help for me as someone who has been getting through school by taking out loans. I would like to thank those who have been kind enough to help support my education. I have had a lot of time to reflect on what education means to me and what I wish to get out of it. I have come to realize the true value of my education lies in fully understanding and appreciating the ingenuity behind the concepts that are taught in class. After I graduate I wish to teach and help people learn in a way that brings out the natural curiosity that lives in all of us. The fact that there are people who believe in me enough to invest in my education means the world to me. This legacy of enriching the lives of others by helping them achieve a meaningful and fulfilling education is one that I will feel honored to carry on in the future.

“I am extremely proud of our students, and I admire their hard work and passion. They are ambitious and ready to make the most of the many life-changing opportunities that we offer. For over 150 years, Illinois has shaped the futures of more than half a million students. We are committed to providing our students with a transformational experience from the moment they arrive to the day they graduate.”
